EXPERIENCE

Backend Developer
Remote - Whitebox.id
2023 - 2024

I've been a Backend developer handling pla-to.com (LMS) & pesen.id (Ordering Application) server-side tasks like Database management, Redis caching and API development, and collaborating with Front-End teams.

Web Developer (Internships)
SMKN 1 Pugging - Indonesia
2023

For 6 months I interned as a web developer at a high school, namely SMKN 1 Pugging. While there, I was with 7 people who were part of 3 developer teams. My team created a warehouse goods management application.

Freelance Web Developer.
Remote
2022 - NOW

I am a freelance web developer with experience working on various platforms such as Fiverr and Sribulancer. I specialize in delivering high-quality, custom web solutions tailored to clients' needs, Like Scripting, build mockup and web pages.
